

FIRST PARISH MEETING HOUSE

FIRST PARISH MEETING HOUSE

Client:
First Parish Meeting House

Location:
Wayland, Massachusetts

Type:
Religious Facilities

Description:
Essex Builders Corp. served as the General Contractor for the construction of a two-story addition housing a new elevator, new rear entrance with handicap ramp, two classrooms, and a minister's private office. Renovations included a rebuilt and enlarged choir loft, new lighting, acoustical treatment, code compliance and handicap restrooms.

Extensive historical research and analysis was essential to match existing trim for this historically certified reconstruction. New steel frames support the rebuilt choir loft and the original rear wall.

Architect:
Daniel Architects, Inc.
Natick, Massachusetts
