

BJ'S WHOLESALE CLUB

BJ'S WHOLESALE CLUB

Client:

BJ's Wholesale Club

Location:

Danvers, Massachusetts

Type:

Retail Facilities

Description:

Essex Builders Corp. served as the General Contractor for this 120,000 SF building with full height masonry walls. The building has a pre-engineered building and roof system.

The major portion of the building contains retail sales fixtures, racks and display components. The structure also houses a tire and installation area, six loading docks, a perishable department with state-of-the-art refrigeration systems, a bakery, food court and mezzanine.

Architect:

Asfour Associates, Inc.
