

First Phase Of Norwood Chrysler Dealership Renovations Nears Completion

07/06/10

Westwood's Essex Builders Corp. is finishing up exterior façade renovations for Central Chrysler Jeep and Dodge located at 56 Providence Highway in Norwood.

Design documents prepared by John R. Perry Architect Ltd. of Norwood, reflect Chrysler's new brand theme for its North American dealerships, according to a statement.

"The main focus of our mission on this project was to ensure the work was carried out without any interruption or adverse impact to our client's business," said David O'Neil, president of Essex Builders Corp. "By working closely with Peter Catanese ... of Central Chrysler, we established a construction schedule and phasing plan which ensured customers continued to enjoy the service and courtesy they have come to expect at this location."

"We recognize our customers' loyalty to the Chrysler brand and did not use the current economic climate as an excuse to delay this upgrade. Essex Builders have been a pleasure to work with," said Peter Catanese II. "We are excited at the prospect of completing both this and subsequent phases of our master plan for this dealership. Seeing Jack Perry's vision come together has been a rewarding experience."

Central Chrysler Jeep and Dodge is located in Norwood on Route 1's Automile.
